Monster Maze

Monster Maze*

Designed by
Bob Schilling

They're after you! Your only hope is to get them before they get you. Trapped in a 3-dimensional chamber of horrors, over 40 mutant monstrosities are chasing you down corridor after corridor, through many unique mazes that are different every time you play.

As you scurry down blind alleys and seemingly endless halls, you find gold bars just waiting to be grabbed up. Here and there you find a vitamin—but around the next corner a new terror awaits! If you can reach the vitamin before the monster reaches you . . .

Only the vitamins can give you the strength you need to kill the critters and enable you to escape the labyrinth.

Can you rid the maze of these rude rascals and collect all the gold? You only have nine lives!

Your map is an overhead view of this chamber of horrors. But don't look at it too long, lest you find yourself in the midst of those menacing monsters.

As you maneuver through the maze, you see it unveiled as though through your own eyes—in colorful first-person graphics.

You'll be startled to find that nine progressively more difficult levels of play increase the challenge as the game proceeds. And once you've cleared all the floors of the maze, you'll find an all new labyrinth to scare you to death!

- **Animated 3-D color graphics and sound**
- **For ages 10 through adult**
- **Complexity: Introductory**
- **Playing time: 30 minutes to hours of fun**
- **Requires joystick controller**
- **For one player**
